The Honorable Tom Cole  
Chairman  
House Committee on Appropriations  
Washington, D.C. 20515

The Honorable Rosa DeLauro  
Ranking Member  
House Committee on Appropriations  
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting community project funding for Oro Valley Police Department Technology and Equipment Modernization in fiscal year 2027. The entity to receive funding for this project is the Town of Oro Valley located at 11000 N. La Cañada Drive Oro Valley AZ, 85737.

The funding would be used to equip the Town's new Police Department headquarters with modern law enforcement technology, security systems, and operational equipment. The Town is fully funding the building acquisition, renovation, and interior construction needed to convert the facility into a police headquarters. Federal funding would support the equipment and technology necessary to make the facility operational. Specifically, federal funds would equip the new facility with: Secure communications and emergency coordination systems, access control and facility security systems, surveillance and monitoring systems, digital evidence management and forensic technology, interview room audio/video recording systems, training and operational technology, specialized law enforcement equipment and investigative technology, secure police workstations and technology integration. These funds will also upgrade and replace the current mobile and handheld radios for the Oro Valley Police Department. The current radios are not able to support the encryption requirements of the system or regional partners. In addition to encryption needs, the current handheld radios are nearing the end of their service life. The project is an appropriate use of taxpayer funds because these systems will enable secure communications, digital evidence management, officer training, and coordinated emergency response operations. Furthermore, the current radios will no longer be supported by 2030, making a full upgrade of radios a smart investment of taxpayer dollars.

The project has a Federal nexus because the funding provided is for purposes authorized by section 1701(b)(9) of the Omnibus Crime Control and Safe Streets Act of 1968 (34 U.S.C. § 10381(b)(9)).

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

A handwritten signature in black ink, appearing to read 'Juan Ciscomani', written in a cursive style.
